

## Group Contract & Memorandum of Understanding

<b>Contract</b>	<b>Group Name</b> <i>Group 3</i>	<b>Project Name</b> <i>Pizza Nista</i>
<b>Participants (list group members)</b>  Aditi Vadiguri Britney Wang Nicholas Ea Mimi Nguyen		
<b>Communication Rules:</b>  Group chat through “iMessage” to share ideas and work done. For macro-oversight of the project will be discussed in the weekly zoom meeting, so that everyone is on the same page. Responses are expected within 12 hours.		
<b>Attendance Policy:</b>  Zoom meetings once a week on Mondays at 8:00pm. However, communication through the group chat will be greatly appreciated to fit everyone’s schedule. Failure to attend a meeting 3 times without notice is a reason for removal from the group.		
<b>Rules for Quality of Work and Conduct:</b>  I will abide by the laws, rules, and regulations of my school. I will conduct myself with integrity, fidelity, and honesty. I will openly take responsibility for my actions, and only make agreements, which I intend to keep.		
<b>Rules for Removal from the Group:</b>  <ol style="list-style-type: none"><li>1. If a team member does not fulfill their role or breaks the ethics statement this will result in removal from the team.</li><li>2. If a team member violates copyright law this will result in removal from the team and removal of copyright material from the project.</li><li>3. Failure to communicate, complete assignments on time, and produce proactive work.</li></ol>		
<b>MOU</b>		

## Group Contract & Memorandum of Understanding

### Project Goal/Objectives:

The goal of the project is to create an Alpha Web Storefront for a pizza restaurant. This is through the use of HTML, CSS, Bootstrap, JavaScript, JSON Shopper Document collection, and storefront logistics. We want to keep track of the details of the shoppers from our restaurant.

### Project Description:

Create a web page for a store front that is presentable while creating shopper management experience. Aesthetics and inputs will be managed through the front-end management of the web page. While backend will track and record shopper data.

### Scope of Work:

The scope of work required is to have a written document of work done by each group member. Additional documents are screenshots of the code effort and finalized web page.

### Major Deliverables:

- Web Storefront: Shopper Management with page structure, page style/cosmetics, professional look, page behaviors/field integrity checks
- Shopper Documentation collection
- Shopper details

### Project Timeline:

- Baseline research and document development by February 8<sup>th</sup>
- Rough Draft by February 12<sup>th</sup>
- Due Sunday, February 19<sup>th</sup>

### Project Group (Including Roles and Responsibilities for each member):

*Aditi – Software Developer, Web Developer, Research: Research different products for site*

*Britney – Software Developer, Event Planner; Collaborates with team in building the website and in charge of planning the meetings.*

*Mimi – Software Developer, Web Developer: Handles HTML documents and development, Graphic Artist: Manages the visual graphics of the storefront and related webpages*

*Nick – Software Developer, Writer/Editor: Writes and edits code and documentation about webpage.*

### Open Issues, Assumptions, Risks, or Obstacles:

- *Are we supposed to make the storefront for a business and another section to gather data from users who purchase goods, create accounts, etc...?*

### Project Start Date

**Feb 5th**

### Project End Date

**Feb 19th**

**Group Contract & Memorandum of Understanding**
